NewYork-Presbyterian/Queens
The Rogosin Institute
2017 Symposium**

**“New Models for the Prevention and Better Management of Kidney
Disease: Saving Lives, Improving Quality, Reducing Costs”**

Wednesday, October 11, 2017
8:00 a.m. -12:30 p.m.

Caspary Hall
The Rockefeller University
1350 York Avenue
New York, NY 10065

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and Policies of the Medical Society of the State of New York (MSSNY) through the joint providership of NewYork-Presbyterian/Queens and the Rogosin Institute. NewYork-Presbyterian/Queens is accredited by The Medical Society of the State of New York (MSSNY) to provide continuing medical education for physicians.

NewYork-Presbyterian/Queens designates this Live Activity for a maximum of **3.0 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure

The Medical Society of The State of New York relies upon planners and faculty participants in its CME activities to provide educational information that is objective and free of bias. In this spirit and in accordance with the guidelines of MSSNY and the ACCME, all speakers and planners for CME activities must disclose any relevant financial relationships with commercial interests whose products, devices or services may be discussed in the content of a CME activity, that might be perceived as a real or apparent conflict of interest. Any discussion of investigational or unlabeled uses of a product will be identified.

11:45 – 12:20 p.m.	Panel: Speakers and Audience Q&A	MODERATOR: Richard Knight Vice President American Association of Kidney Patients
12:20 – 12:30 p.m. CONCLUDING STATEMENT AND EVALUATIONS		

SPEAKERS

Sara Richlin

Sara Richlin leads CareMore's comprehensive, home-based primary care model as VP and General Manager for CareMore Connecticut. In this capacity, Sara partners with CareMore's physician leadership to advance CareMore's clinical model of care, and is responsible for CareMore's market operations and health plan collaboration. Through her stewardship of CareMore's expansion to Duals members, CareMore is now serving 2K patients in Connecticut with comprehensive home-based services that extend CareMore's proven Medicare Advantage results to patients with complex chronic and behavioral health needs.

Prior to leading CareMore's Connecticut launch and implementation, Sara led the development of new collaboration models across CareMore markets, and continues to drive development activities as lead for CareMore's Medicare Advantage collaboration segment.

Prior to CareMore, Sara was a Principal with Strategy& (formerly Booz & Company) in the firm's Healthcare practice. She advised health plans and health systems on the development of payor-provider collaboration models, including work with large Blue plans to deploy value-based contracting and reposition for Medicare Advantage growth. Sara holds an MBA from Harvard Business School and a BA from Wesleyan University. She is a Fulbright Scholar and a founding member of the Clinton Global Initiative.

Rachel N. Meyer

Rachel Nell Meyer is the Director of Policy and Government Affairs at the American Society of Nephrology and oversees the society's federal legislative and regulatory advocacy portfolio. Rachel administers ASN's patient care and research-related advocacy efforts, working with Congress as well as federal agencies including the Centers for Medicare and Medicaid Services, the Food and Drug Administration, and the National Institutes of Health to influence policies that affect nephrology health professionals and the patients they serve.

Prior to joining ASN, she conducted healthcare research at the Advisory Board Company in Washington, DC, and worked for Senator Ken Salazar (D-CO) in his district office. Rachel has a degree in Global Health and Development from the Colorado College.

She has co-authored numerous articles, including "Fostering Innovation, Advancing Patient Safety: The Kidney Health Initiative"; "Comparing Mandated Health Care Reforms: The Affordable Care Act, Accountable Care Organizations, and the Medicare ESRD Program"; and "Considering an Integrated Nephrology Care Delivery Model: Six Principles for Quality."

Tonya Saffer, MPH

Tonya Saffer, Senior Health Policy Director at the National Kidney Foundation (NKF) works to identify, develop, and advance legislative and federal regulatory policies to improve health outcomes and opportunities for kidney patients and enhance health professionals' abilities to prevent, identify and treat chronic kidney disease. Tonya has a career history of leading health policy development for non-profits. Her primary focus has been on healthcare and health insurance access and affordability, value based purchasing, and patient advocacy.

Prior to joining NKF, Tonya worked at Avalere Health in the company's Reimbursement and Product Commercialization practice where she advised healthcare companies and non-profits on how to incorporate policy and changing financial market dynamics into their business planning. She also worked for DaVita and subsequently Dialysis Patient Citizens where she last served as the Interim Executive Director.

In 2013, Tonya was appointed by the County Executive to serve her local community for a three-year term as an adviser on the Montgomery County, MD Commission on Health. She earned a M.P.H. in Health Policy from the George Washington University School of Public Health and Health Services and graduated from Arizona State University with honors and a B.A. in Political Science.

Doug Johnson, MD

Doug Johnson, MD is Vice Chairman of the Board for Dialysis Clinic, Inc. (DCI). DCI is the largest nonprofit dialysis provider in the country, serving more than 15,000 patients in over 230 clinics in 28 states. DCI also cares for more than 3,000 patients with chronic kidney disease, not on dialysis, in 22 different locations.

Dr. Johnson has served on the Board of Trustees of DCI for more than twenty years. He received his medical training at Vanderbilt University, graduating in 2006; and completed his internal medicine training at University of Tennessee/Baptist Hospital in June 2009. He received his legal training at Temple University School of Law, graduating in 1993.

Since returning to DCI in 2009, Dr. Johnson has helped to implement initiatives to ensure financial stability of the company while also helping to develop tools to ensure excellent patient outcomes and improve patient care. At DCI, we see the new bundled payment system as an opportunity to improve care by taking advantage of certain unique aspects of the new payment system. We also see the CMMI CEC program as a unique opportunity to improve the overall care for patients with kidney disease. In 2015, DCI was approved to operate three ESCOs, more than 23% of the total ESCOs approved nationwide. Dr. Johnson led the team that put together the applications and is now working with our new partners in each ESCO to implement new initiatives to improve the overall care for patients with kidney disease.

Dr. Johnson also serves at DCI Donor Services, Inc., a non-profit company that operates organ procurement organizations in Tennessee, New Mexico and Northern California. In addition, he sees patients in his internal medicine practice twice a week.

Steven Fishbane, MD

Steven Fishbane, MD is the Chief of the Division of Kidney Diseases and Hypertension, Vice President of North Shore-LIJ Health System for Network Dialysis Services, and Director of Clinical Research for the North Shore-LIJ Department of Medicine. Dr. Fishbane previously served as the Chief Medical Officer for Winthrop-University Hospital, as well as the Chief of the Division of Nephrology and Associate Chairman of the Department of Medicine. A nephrologist with over 23 years of clinical experience and over 22 years as a medical researcher, he understands and has studied many of the issues involved with patient hospitalizations, readmissions, complications of chronic kidney disease (CKD) and issues with decision making related to end stage kidney disease (ESKD). An important part of his training has been as Medical Director for 5 different dialysis facilities and as Medical Director for the Healthy Transitions in Advanced Kidney Disease Program. Through his clinical research, Dr. Fishbane has become renowned for advancement and innovation in the treatment of CKD patients.

Dr. Fishbane has been a member of the National Quality Forum Standing Committee on Admissions and Readmissions and has served on the Board of Directors for the Renal Physicians Association. He serves on the Medical Advisory Board for the National Kidney Foundation Serving Greater New York and is the Director of its Annual Educational Symposium. Dr. Fishbane was previously the Associate Editor of NephSAP and has been involved with the New York Society of Nephrology as President, Vice President, Secretary/Treasurer, and Program Chair. Dr. Fishbane earned his medical degree from the Albert Einstein College of Medicine in Bronx, New York and completed an internship in medicine at Beth Israel Hospital in New York City. He completed his residency in internal medicine at Montefiore Medical Center in Bronx, New York, and a fellowship in nephrology at the Albert Einstein College of Medicine.

Derek Forfang

Derek Forfang has been a Type 1 diabetic since age 10 and an ESRD patient since 1999 utilizing various treatment modalities including transplantation, peritoneal dialysis and in-center hemodialysis. He is the Chair of the National Forum of ESRD Networks, Kidney Patient Advisory Council (KPAC), KPAC Representative to the Forum's Medical Advisory Council and Member on the Board of Directors. He is the Chair of ESRD Network #17's Patient Advisory Committee (PAC), member of their Medical Review Board and Board of Directors. He serves on the National Kidney Foundations (NKF) Kidney Advocacy Committee (KAC) as a Region Leader covering CA, OR, WA, AK, HI and on the NKF Public Policy Committee. He also is a member of the Kidney Health Initiative (KHI).

Richard Knight

Richard Knight is a former hemodialysis patient who received a kidney transplant approximately nine years ago. Mr. Knight is a certified public accountant and small business owner who is heavily involved in business and education issues through various professional networks in Maryland and Washington, D.C. He is a graduate of Hampton University and the University of Virginia Darden School of Business. Mr. Knight has a substantial background in public policy and Congressional operations based on both his advocacy work as a kidney transplant patient as well as his professional experience on Capitol Hill where he served in various roles including communications, policy and Chief of Staff. Mr. Knight was also the representative for his Member of Congress to the Congressional Black Caucus of the U.S. House of Representatives. Richard is currently a Business Strategist, providing patient engagement consulting for healthcare organizations and serving as a patient advocate for businesses seeking patient input and guidance in pursuing better and more affordable care. He is also an adjunct professor at Bowie State University, where he teaches graduate and undergraduate courses in the College of Business.

He is currently Vice President and Chair of the American Association of Kidney Patients (AAKP) Public Policy Committee, a member of the National Kidney Disease Educational Program Health Information Technology Working Group, and a member of the Board of Directors of the Mid-Atlantic Renal Coalition (MARC). Mr. Knight is also a member of the Technical Expert Panel (TEP) focusing on Hospital Readmissions for Arbor Research Collaborative for Health and the University of Michigan Kidney Epidemiology and Cost Center, a founding member of the End Stage Renal Disease (ESRD) Health Information Technology (HIT) Project, a member of the steering committee for the Coalition for Supportive Care of Kidney Patients and also participated in the Fistula First Breakthrough Initiative.

NewYork-Presbyterian **Regional Hospital Network**

NewYork-Presbyterian, based in New York City, is a world-class academic healthcare delivery network dedicated to providing the highest quality and most advanced care to patients and families in the Greater New York area and across the country. In collaboration with two world-renowned medical school partners, Weill Cornell Medicine and Columbia University College of Physicians & Surgeons, NewYork-Presbyterian delivers patient-centered care to one of the most diverse populations in the world, conducts groundbreaking medical research and develops leading clinical innovations.

NewYork-Presbyterian comprises four major divisions: NewYork-Presbyterian Hospital, a world-class academic medical center ranked the #1 hospital in the New York metropolitan area by U.S. News and World Report, and consistently named to the magazine's Honor Roll of best hospitals in the nation; NewYork-Presbyterian Regional Hospital Network, comprised of leading regional hospitals in the New York metro region; NewYork-Presbyterian Physician Services, which brings medical experts to patients in convenient locations in their communities; and NewYork-Presbyterian Community and Population Health, comprised of the institution's ambulatory care network sites and operations, community programs and initiatives and healthcare quality programs including NewYork Quality Care, the Accountable Care Organization jointly established by NewYork-Presbyterian, Weill Cornell and Columbia.

NewYork-Presbyterian is committed to excellence in patient care, research, education and community health. For more information, visit www.nyp.org.

NewYork-Presbyterian **Queens**

NewYork-Presbyterian/Queens is a member of the NewYork-Presbyterian Regional Hospital Network. NewYork-Presbyterian/Queens is committed to being a premier healthcare institution serving our greater community by providing excellence in clinical care and patient safety, education, clinical research and service.

For more information, visit www.nyp.org/queens

The Rogosin Institute provides the best possible health care and quality of life for people with kidney disease, as well as those with diabetes, lipid and cardiovascular disorders, and cancer.

The Rogosin Institute's primary mission is to:

- Provide optimal clinical care and quality of life for patients with chronic diseases
- Foster innovative basic and clinical research to find new and better treatments
- Promote humanitarian and quality health outreach programs to individuals, families, and communities, along with public policy initiatives that advance health and prevent disease

The Rogosin Institute is committed to produce a unique applicable model for optimal, cost-effective health care and health promotion.
